IMS POLICY Statement

BASREC-IMS-
PLCY-01
Rev:02

The **Bahrain Ship Repair and Engineering Company B.S.C. (BASREC)** is committed to the execution of the client's instructions accurately, correctly, first time, at a fair price and within the required time in a safely manner.

We are committed to meet customers and interested parties expectations by providing services conforming to established technical standards and commercial requirements both specified and implemented.

The Management of **BASREC** is totally committed to a policy of prevention and elimination of all undesirable events/hazards which may result in loss of lives and/or harm to Employees, Visitors, Clients, Vendor/Supplier, External Contractors, Damage to Properties, the Surrounding Community and Environment. To provide safe and healthy working environment within the company we are committed to consultation and participation of the workers.

We are therefore committed to reduce our Environmental Impact, Prevention of Pollution, Protection of Environment and continually improving our Environmental & Safety performance as an Integral and Fundamental part of our Service Processes.

We are always fostering a Quality & Safety culture with the Objective of developing and providing services with zero defects & incidents that are trusted and preferred by our Consumers. For that we are always trying to sustainably create value and to effectively and efficiently build customer and consumer trusts.

By setting and reviewing the IMS objectives and targets and subjected to continual improvement and communicating this to all employees/ interested parties, **BASREC** aims to ensure its ongoing commitment to maintain the Quality and reduce Safety, Health and Environmental issue related to the processes and services.

Successful implementation of this commitment to provide our Operations and Maintenance Services requires a thorough understanding and complete acceptance of the following;

- Compliance with all existing Rules & Regulations set by the Bahrain's Government, International Standard and Best Practice regarding Quality, Occupational Health & Safety as well as for Environmental Protection.
- Identifying and assessing significant risks and setting of prioritised controls for elimination and reduction of risks.
- It is the duty of every Staff member, Visitors, Clients, Vendor/Supplier and External Contractors to protect himself and the individuals associated with his activities from accidents which may result in injury or death.
- It is the Moral responsibility of the company and of its entire staff, to protect the surrounding Community and the Environment affected by its activities.
- Only Accident-free projects can be expected to be consistently productive and profitable.
- Through proper planning and compliance with all safety standards, procedures, best work practices, all accidents / incidents causing injuries and damage can be prevented.
- To boost up the performance of our employee through Awareness, Training and Knowledge of Integrated Management System norms.

All **BASREC** staff are accountable to ensure successful implementation of this policy.

We expect all customers, subcontractors, visitors and others who work at **BASREC** to share this commitment by complying with our policies and, where appropriate, our procedures and to understand that they too have legal and moral obligations to themselves and to others.
